REPORT ON WORKSHOP ON ENTREPRENEURSHIP DEVELOPMENT THROUGH COMPUTER NETWORKING

3rd September, 2019
Time: 11:00 AM to 2.00 PM
Organized by Department of Computer Applications

The Department of Computer Applications, Morigaon College, hosted a workshop on "Entrepreneurship Development through Computer Networking" which is held on 03-09-2019 at the Department of Computer Applications at 11:00 AM. The workshop commenced with the invitation of the guests and dignitaries to the dais by Mr. Bulbul Das, Head, Department of Computer Applications. The program was chaired by Dr. Lila Kanta Barthakur, Hon'ble Principal of Morigaon College. The Chairperson, Resource person and other guests were duly felicitated with "Phulam Gamucha" by the faculty members of Morigaon College After felicitation, the program begins with a beautiful presentation of "*Borgeet*" by Dhiti Paul, BA 5th Semester.

After that, the inaugural lecture is delivered by Dr. Lila Kanta Barthakur, Principal of Morigaon College. The speech emphasized on the prospects of entrepreneurship and its necessity in the state and especially in Morigaon region for future development. He ended his speech with the invitation to the guest speaker for presentation on the topic.

The resource person of the workshop was Md. Muktab Hussain, Assistant Professor, Department of Computer Applications, Jagiroad College. He comprised of a brilliant interactive lecture on Computer Networks. All the students actively participated in the event to make it a grand success.

In his presentation, he described what computer network is and how we can able to get ourselves engaged in Computer Networking jobs. Computer Network is a group of computer systems and other computing hardware devices that are linked together through communication channels to facilitate communication and resource sharing among a wide range of users. Networks are commonly categorized based on their characteristics.

This workshop provided hands-on training on networking basics, taught by an experienced technical trainer, using a live in-classroom network. Students learned about cabling, network protocols (including a close-up look at TCP/IP), network devices like hubs,

switches, routers, firewalls, repeaters, gateways, and more. Students will learn how to create a secure network and avoid common network security mistakes. This hands-on networking fundamentals training workshop had got students up to speed with practical tools and techniques that they can put to use right away to make their network run faster and more securely with fewer problems.
