## Report

The Department of Economics organised a one day workshop for the students on the topic "Entrepreneurship in IT Sector" in the college premises. The workshop was chaired by Dr. Budhen Saikia, faculty member of the department. He welcomed the resource person to the department and gave a brief introduction of him. The resource person Mr. Sahil Ahmed owns a computer training institute in Morigaon town, where he provides computer education to different people of different age groups. Mr. Ahmed started by telling, his educational qualifications, his business journey, how he started, from where he got help to start the business, what are the constraints faced by him while starting his institute etc. Since the knowledge of computer is essential for all age groups be it students or working professionals, and there are not enough computer training institutes in the area so he thought of starting his own institute in his native place i.e. Morigaon. Today he is not only imparting computer education to a large group of people but also providing employment to others who is working in his institute. After the speech of the resource person, the students interacted with Mr. Sahil and the meeting ended with a vote of thanks by one of the students.

Outcome: the students listened attentively to the resource person and participated enthusiastically. The feedback was positive.
