**Topic: Workshop on Bio Manure Production and Application: Sustainable Practice For Soil Health and Crop Production (ENT)**

**Resource person: Prof. Jogen Chandra Kalita**

**Date: 22/11/2020**

A workshop on bio manure production and application emerges as a critical learning opportunity for both graduating students and those pursuing a Master's in Science (M.Sc.). Prof. J.C Kalita , Department of Zoology, Gauhati University was present as the Resource Person. This report encapsulates the key insights from the workshop, emphasizing its significance in promoting sustainable practices for soil health and crop production. The workshop delves into the principles of bio manure production, covering organic and eco-friendly techniques to enhance soil fertility. Attendees gain practical knowledge about the application of bio manure in agriculture, understanding its role in nutrient cycling, soil structure improvement, and overall sustainability. By fostering an interactive learning environment, the workshop encourages students to engage with innovative approaches, promoting environmentally friendly practices in modern agriculture. The knowledge gained not only equips students with practical skills for responsible farming but also instills a sense of stewardship towards soil health and the broader ecosystem, aligning with the global drive towards sustainable agriculture.
