**Topic: Integration of Qualitative and Quantitative Methodology in a Single Study(RM)**

**Resource person: Snigdha Deka, Gurukul Academy, Morigaon**

**Date: 19/08/22**

The workshop on the "Integration of Qualitative and Quantitative Methodology in a Single Study" proved to be an enriching experience for both graduation and master's students. Held on 19/08/22 at Department of Zoology, the workshop aimed to bridge the gap between qualitative and quantitative research approaches, providing students with valuable insights into the benefits of combining these methodologies. Snigdha Deka, a former Msc. Student of Morigaon College, currently working in Gurukul Academy was present as the resource person and guided participants through practical examples, illustrating how the integration of both qualitative and quantitative methods enhances the comprehensiveness of research studies. Attendees, comprising students from undergraduate and postgraduate programs, actively engaged in discussions on the advantages and challenges of this integrated approach. The workshop not only equipped students with a nuanced understanding of research design but also encouraged them to think critically about the applicability of mixed-methods research in their respective fields of study. Overall, the event played a pivotal role in enhancing the research skills of the participants and encouraging a holistic approach to academic inquiry.
