NOTICE

It is general notice for all at the students that department of zoology is going to organize a National Workshop on "Decoding the Estrous Cycle: A Workshop on Techniques and Applications in Rodent Reproductive Research" on 26/11/22, at the departmental seminar hall at 10:00 am.

All the students are requested to attend the program positively.

Thanking you

Subject: Permission for organizing Workshop

Respected Sir

With due respect I beg to inform you that department of Zoology will organize a Workshop on the topic **“Decoding the Estrous Cycle: A Workshop on Techniques and Applications in Rodent Reproductive Research”** at departmental seminar hall at 11:00am on 26/11/22 with the presence of distinguished resource person **Prof. Jogen Ch. Kalita**.

So, I therefor request you to allow us for organizing the Workshop and obliged.

Thanking you

Yours Sincerely

A Workshop on Avian Nest Monitoring and its Ecological Significance (RM)

Resource person: Prof. Prashanta Kr. Saikia, Gauhati University

Date: 26/12/22

Department of Zoology, Morigaon College organized a "Workshop on Avian Nest Monitoring and its Ecological Significance" offered graduation and master's degree students in environmental sciences and biology a unique opportunity to deepen their understanding of avian ecology and contribute to ecological research. Prof. Prasanta Kumar Saikia, Department of Zoology, Gauhati University was present as the resource person. The workshop commenced with an introduction to avian ecology, emphasizing the crucial role of bird nests in unraveling ecological dynamics. Participants engaged in hands-on activities focused on bird identification, nest recognition, and field techniques for monitoring nesting behaviors. The workshop explored the ecological implications of nesting behaviors, environmental factors influencing nesting success, and the use of technology in advanced nest monitoring. The emphasis on data collection, analysis, and visualization provided students with practical skills for ecological research. Moreover, discussions on community engagement and conservation highlighted the broader impact of avian nest monitoring on environmental preservation. By bridging theoretical knowledge with practical applications, this workshop equipped graduation and master's students with valuable tools for contributing to avian ecology research and fostering a deeper appreciation for the ecological significance of bird nest monitoring.
